

Koga City is a nature lovers' paradise, from the seaside up to lush surrounding mountains. Enjoy sublime sunsets on the expansive white-sand beaches all year round. Explore lush hills overlooking the coast lined with clear water streams. From late May to early June fireflies dot these hills with their flickering lights.

Koga also attracts food lovers from surrounding cities. The ideal growing conditions for fruits such as strawberries and oranges and the Fukuoka Food Processing Industrial Park give Koga its reputation as a "food city"; the second biggest food producer in the Fukuoka prefecture.

All of this and more local treasures to discover make Koga a must-see destination.

Welcome to Koga!
